Codeविद्या

From Theory to Production

From Student to
Software Developer

Learn How Real
Software Is Built.

12-WEEK INDUSTRY INTERNSHIP PROGRAM

- ✓ Classroom programming teaches you how to write code. Industry teaches you how to build, collaborate, debug, test and deliver software.
- ✓ Code Vidhya bridges that gap through a structured, mentor-guided industry internship experience.

For BCA, B.Tech, BSc IT, MCA, and Diploma Students

SURAT PILOT BATCH 01

12 Weeks | Full-Stack | Limited Seats

Apply Now: [Phone/WhatsApp] | [Website] | [QR Code]

Most students know programming concepts but struggle in real development environments. AnkCode bridges that gap through real projects, mentorship, Git workflow, APIs, databases, testing, and deployment.

WHAT YOU TAKE AWAY

- ✓ Industry-style project experience
- ✓ GitHub portfolio and project repository
- ✓ Practical development skills
- ✓ Mentor feedback & performance evaluation
- ✓ Project documentation & report
- ✓ Technical assessment & final evaluation
- ✓ Internship Completion Certificate

WHAT YOU WILL EXPERIENCE

- ✓ **REAL-WORLD PROJECT:-** Work as part of a development team to build a complete business application.
- ✓ **INDUSTRY WORKFLOW:-** Understand requirements, task planning, development cycles, Git, GitHub, code reviews and documentation.
- ✓ **MODERN TECHNOLOGY:-** Work with technologies such as React, Node.js, REST APIs, PostgreSQL, Git & GitHub.
- ✓ **TEAM COLLABORATION:-** Experience how developers, team leaders, mentors and testers work together to deliver software.
- ✓ **TESTING & DEBUGGING:-** Learn to find problems, understand bugs, improve code and make applications reliable.
- ✓ **DEPLOYMENT:-** Take your project beyond your laptop and understand the journey from development to deployment.

✓ REAL-WORLD PROJECT

Work as part of a development team to build a complete business application.

✓ INDUSTRY WORKFLOW

Understand requirements, task planning, development cycles, Git, GitHub, code reviews and documentation.

✓ TEAM COLLABORATION

Experience how developers, team leaders, mentors and testers work together to deliver software.

✓ MODERN TECHNOLOGY

Work with technologies such as React, Node.js, REST APIs, PostgreSQL, GitHub.

✓ TESTING & DEBUGGING

Learn to find problems, understand bugs, improve code and make applications reliable.

✓ DEPLOYMENT

Take your project beyond your laptop and understand the journey from development to deployment.
